

Vision of Glocal Ministries

- **We envision faithful discipleship that is motivated by scripture and personal relationships** to do justice, love mercy, and walk humbly with God as we engage in presence, justice, advocacy, and compassion both in our local context and around the world.
- **We envision a congregation where everyone is actively committed** in some way, however large or small, to care for “the least of these” – not out of guilt or political correctness, but because we know that reciprocal, healthy Glocal Ministry leads to life-changing spiritual growth transformation.
- **We envision a community and world that takes notice of Christ-followers loving others** in word and deed as a natural part of our witness, and whose commitment is long-standing, intentional, authentic, informed, contextual, and – while never perfect – is one that acknowledges that God is already at work in the world, in others, and in messy and broken places if we will listen, learn, and love alongside others.
