

Local & Global Ministries Mission & Values

**Mission: To empower local and global engagement
of compassion and justice at Quest Church**

- We **empower and invite all ages into discipleship**, to live what we believe about the whole Gospel centering compassion, justice, the marginalized, and the poor
- We **interrupt systems that threaten life** by offering both compassionate and timely relationships and resources, and by investing in long-term, sustainable justice solutions
- We **work through healthy, intentional partnerships to** honor experts in their fields & learn together how to make tangible impact while building thriving & diverse community
- We **seek to rewrite the narratives about mission/ministry power dynamics** by rejecting colonization/"service to" models - instead we embody redistributing just power around race, gender, class, etc. through reciprocity and mutual transformation
- We **equip and multiply the capacity of leaders** to live compassion & justice in all their spheres of influence through networking, sharing assets, & resource/relationship sharing
